Course Overview:

The Advanced Techniques in MIS program is designed for surgeons experienced with MIS procedures who want to learn new MIS techniques and advance their expertise in this area. Participants will have opportunities to:

- **Learn and discuss** advanced applications of Minimally Invasive Spinal Surgery
- **Interact and exchange** ideas with colleagues who share an interest in advancing MIS techniques. Participants are encouraged to bring a recent or upcoming MIS case to discuss
- **Learn from experienced faculty** who have extensive working knowledge of minimally invasive techniques
- **Participate** in group discussions and observe surgical demonstration

Course Location:

The DePuy Institute, LLC
325 Paramount Drive
Raynham, MA 02767
